

IN THE CLAIMS:

The text of all pending claims (including withdrawn claims) is set forth below. Cancelled and not entered claims are indicated with claim number and status only. The claims as listed below show added text with underlining and deleted text with ~~striketrough~~. The status of each claim is indicated with one of (original), (currently amended), (cancelled), (withdrawn), (new), (previously presented), or (not entered).

Please CANCEL claims 1-7, and 14-18 without prejudice or disclaimer.

Please AMEND the claims 8 and 10-12 in accordance with the following:

1-7. (CANCELED)

8. (CURRENTLY AMENDED) ~~A streaming delivery method according to claim~~
~~4,streaming delivery method comprising:~~
collecting text data relating to a moving image content being streamed by a streaming
server, the text data being written from a user terminal;
superimposing the collected text data on the moving image content being streamed by
the streaming server; and
delivering the moving image content on which the text data is superimposed to the user
terminal by the streaming server.

wherein the streaming server sets display time per the collected text data on a basis of the number of the collected text data and the number of text data which can be displayed on a screen at a time.

9. (ORIGINAL) A streaming delivery method according to claim 8, wherein, in a case that the number of collected text data is greater than the number of text data which can be displayed on the screen at a time, the streaming server sets the display time to a shorter value as the number of the collected text data increases.

10. (CURRENTLY AMENDED) ~~A streaming delivery method according to claim~~
~~4,streaming delivery method comprising:~~
collecting text data relating to a moving image content being streamed by a streaming
server, the text data being written from a user terminal;
superimposing the collected text data on the moving image content being streamed by
the streaming server; and

delivering the moving image content on which the text data is superimposed to the user terminal by the streaming server,

wherein the streaming server sets the display position ~~or color~~ of at least one of the collected text data on the screen according to the meaning of the text data.

11. (CURRENTLY AMENDED) A streaming delivery method according to claim 10, wherein the display position ~~or color~~ on the screen is predetermined for each of the text data.

12. (CURRENTLY AMENDED) ~~A streaming delivery method according to claim~~
1, streaming delivery method comprising:

collecting text data relating to a moving image content being streamed by a streaming server, the text data being written from a user terminal;

superimposing the collected text data on the moving image content being streamed by the streaming server; and

delivering the moving image content on which the text data is superimposed to the user terminal by the streaming server,

wherein the streaming server superimposes a new text data along with at least one of the collected text data at the same time according to the meaning of one of the collected text data, the meaning of the new text data being different from one of the collected text data.

13. (ORIGINAL) A streaming delivery method according to claim 12, wherein the new text data is predetermined for each of the text data.

14-18. (CANCELED)
